

CHROMEWEAVER™

Sharpline's ChromeWeaver™ products provide professional restylers and sign shops with two guilt-free ways to "mesh around" with contemporary graphic design.

- * ChromeWeaver™ graphics utilize a true chrome film, not a digitally-produced simulated chrome appearance.
- * ChromeWeaver™ incorporates a popular chrome mesh pattern, providing a unique look that complements any vehicle.
- * The ChromeWeaver™ Flame graphic kit #1411-55 dramatically stylizes an automotive graphic icon.
- * The ChromeWeaver™ graphic panel #1412-55 allows restylers to personalize their own graphics and lettering with outstanding results.

ChromeWeaver™ mesh pattern shown at full size.

The ChromeWeaver™ Flame kit consists of two highly detailed graphic panels that measure 9 1/16" x 63" per side. The ChromeWeaver™ Flame kit is compatible with any vehicle paint color, even black!

The ChromeWeaver™ sign panel measures 16" x 96" overall and is designed for use on friction fed sign-cutting equipment.
